ADMINISTRATIVE REGULATION
NUMBER

MENTAL HEALTH OBSERVATION

I. GENERAL

This Alabama Department of Corrections (ADOC) Administrative Regulation (AR) establishes policies, procedures, and responsibilities for the management of inmates whose mental health condition do not represent an expressed or perceived risk of harm to self or others, however, does require that outpatient inmates receive respite in the crisis cell.

II. POLICY

The ADOC takes necessary precautions with the mental health welfare of all inmate outpatients. The use of Mental Health Observation procedures requires clinical justification and is not used for punishment or for the convenience of staff. It is used only when suicide watch is not indicated and other less restrictive measures are not effective or clinically appropriate.

II. DEFINITION(S) AND ACRONYM(S)

Refer to AR 602 for definitions of the following terms used in this AR:

Mental Health Observation

Specialized Training

In-service Training

Annual Training

Crisis Cell

Crisis Evaluation

III. RESPONSIBILITIES
A. The ADOC Director of Treatment is responsible for ensuring that mental health, security as assigned, and medical staff attend mental health specialized, in-service, and annual training on appropriate use and procedures of Mental Health Observation.

B. The Warden/designee is responsible to ensure that security staff monitor the inmate and follow the specifications of the ADOC Psychologist/Psychological Associate, Supervising Psychologist/designee, or Psychiatrist regarding possessions allowed, safety precautions, and the length of confinement to the Crisis Cell.

IV. PROCEDURES

A. Mental Health Observation will be considered when:

   1. The inmate is not able to tolerate a less restrictive environment, due to, but not limited to, unstable mood, irrational thinking or debilitating anxiety.

   2. An inmate is expressing significant grief.

   3. Mental Health Observation status inmates will have access to the crisis cell, when not in use for Suicide Watch.

B. Mental Health Observation will not be used when an inmate exhibits symptoms that meet the criteria for Suicide Watch, as defined in AR 630.

C. Initiation of Mental Health Observation procedures will include the following:

   1. Authorization by an ADOC Psychologist/Psychological Associate, Psychiatrist, Supervising Psychologist or Mental Health Professional when on duty after completing a crisis evaluation.

   2. Inmates placed in the crisis cell by security supervisors, alone in the absence of the mental health crisis evaluation, will be treated as a Suicide Watch inmate, without the availability of personal possessions. They will have a suicide tunic, suicide blanket, and suicide mattress. Once the crisis evaluation has been completed, the inmate may be assigned to Mental Health Observation status and authorized to have less restrictive precautions including approved clothing or possessions.

   3. A crisis evaluation:

      a. Will determine if the inmate will be placed in a crisis cell on Suicide Watch or Mental Health Observation, or returned to their normal sleeping quarters.

      b. Will indicate appropriate treatment for the inmate.

      c. May be initiated by a security supervisor.
