

Prison Rape Elimination Act (PREA) 2018 Annual Report

Alabama Department of Corrections

Introduction

The Prison Rape Elimination Act of 2003 (PREA) was signed into federal law with the purposes of providing information, resources, recommendations, and funding to protect individuals from prison rape, and of providing a mechanism for the analysis of incidents and effects of prison rape in Federal, State, and local institutions. PREA applies to all public and private institutions that house adult and juvenile offenders. In 2012, The Department of Justice published the final rule of standards promulgated by the Attorney General of the United States.

The Alabama Department of Corrections (ADOC) maintains a zero-tolerance policy regarding sexual abuse, sexual misconduct, and sexual harassment of offenders and employees. The agency's zero-tolerance policy, Alabama Regulation 454, Inmate Sexual Abuse and Sexual Harassment (Prison Rape Elimination Act [PREA]), not only aims to protect all offenders under ADOC jurisdiction from sexual abuse and sexual harassment, but also protects against retaliation of anyone who reports sexual abuse and sexual harassment and who participates in an investigation.

ADOC's zero tolerance policy for sexual abuse and sexual harassment adopts and incorporates the following from PREA:

1. The right of inmates to be free from sexual abuse and sexual harassment;
2. The right of inmates and employees to be free from retaliation for reporting sexual abuse and sexual harassment;
3. How to fulfill the responsibilities under ADOC sexual abuse and sexual harassment prevention, detection, reporting, and responding policies and procedures;
4. The dynamics of sexual abuse and sexual harassment victims;
5. Common reactions by sexual abuse and sexual harassment victims;
6. How to detect and respond to signs of threatened and actual sexual abuse;
7. How to avoid inappropriate relationships with inmates;
8. How to communicate effectively and professionally with inmates, including LGBTI or gender non-conforming inmates; and
9. How to comply with relevant laws related to mandatory reporting of sexual abuse and sexual harassment to outside authorities.

ADOC is continually evaluating and improving the reporting methods for inmates, employees and third parties to ensure the highest level of responsiveness. ADOC provides many reporting mechanisms for both victims and third parties. ADOC encourages inmates to report directly to staff as their first choice of reporting. Inmates are provided envelopes to write directly to ADOC's Investigations & Intelligence (I&I) division. Inmates can call outside confidential support services through the inmate phone system at no charge to the inmate. PREA inmate and staff drop boxes have been made available throughout the facilities so confidential, anonymous reports can be made. Inmates may also report to a third-party entity outside of ADOC by dialing *6611 through the inmate phone system at no charge to the inmate.

Third parties such as family, friends and attorneys outside of the facilities can report using an internet reporting form that goes directly to the ADOC Investigations & Intelligence Division. Another third-party reporting method is an email linked directly to the ADOC PREA Division. Both third-party reporting methods can be found on the public ADOC website @ www.doc.alabama.gov.

All allegations of sexual abuse, sexual misconduct, and sexual harassment within ADOC facilities will be investigated. To get a clear understanding of each type allegation, definitions of each are provided below:

Allegations can be administrative or criminal in nature depending on the alleged incident. The Institutional PREA Compliance Manager (IPCM) at each facility tracks the progress of PREA related investigations, maintaining contact with the investigator assigned to the case, if applicable. Upon completion of each substantiated investigation, appropriate disciplinary action is taken against the perpetrator, and all inmate victims are given a written notification of the investigative outcome based on the following categories:

1. **Substantiated:** an allegation that was investigated and determined to have occurred.
2. **Unsubstantiated:** an allegation that was investigated and the investigation produced insufficient evidence to make a final determination as to whether the event occurred.
3. **Unfounded:** an allegation that was investigated and determined not to have occurred.

All substantiated and unsubstantiated PREA investigations are forwarded to the appropriate District Attorney office for further review and potential prosecution.
